ARCHCARE NURSING HOMES NAMED TO NEWSWEEK LIST OF AMERICA’S BEST NURSING HOMES FOR FOURTH CONSECUTIVE YEAR

New York, NY, October 6, 2022 – Nursing homes managed by [ArchCare](#), the Archdiocese of New York’s healthcare system that every day cares for more than 9,000 seniors, the poor and persons with special needs, received top ranking by Newsweek in its “America’s Best Nursing Homes 2023” report. This is the fourth consecutive year that ArchCare facilities have been included in Newsweek’s Best Nursing Homes – New York list.

Mary Manning Walsh Nursing Home (New York) marks its second consecutive year on the list, rising by nine spots from last year, to #15. Providence Rest (Bronx) rose by seventeen spots from last year, at #21. ArchCare at Terence Cardinal Cooke Health Care Center (New York) rose one spot up from last year to #11 on the list. ArchCare at San Vicente de Paul Skilled Nursing and Rehabilitation Center (Bronx) also rose one spot on the list to #22, as did ArchCare at Ferncliff Nursing Home & Rehabilitation Center (Rhinebeck), at #39.

America's Best Nursing Homes 2023 highlights the nation's top nursing homes based on performance data, peer recommendations, the facility's handling of the COVID-19 pandemic and, for the first time, accreditations from the JCI (Joint Commission International).

“We are honored to have our facilities included once again in Newsweek’s annual list of America’s Best Nursing Homes,” said Scott LaRue, President and Chief Executive Officer of ArchCare. “The health, safety and comfort of our residents and participants is essential, and we are proud to be recognized for our facilities’ overall excellence and the diligent care that goes into maintaining the exceptional quality of life our community deserves.”

ArchCare ensures the highest level of infection prevention across its nursing home residences and programs. Led by Dr. Walid Michelen, SVP Clinical Planning & Innovation, Chief Medical Officer, ArchCare’s PROTECT (Program to Eliminate Contagion at ArchCare) program is underway across the system. PROTECT combines centralization, communication, and coordination with upgrades to facility environments, tailored safety training for staff members at all levels of the system and testing and contact tracing to proactively prepare ArchCare for any future infectious disease outbreaks.

The facilities honored by Newsweek have a long history of excellence. Mary Manning Walsh Nursing Home located on the Upper East Side in Manhattan has been providing intensive short-term rehabilitation and long-term care with an atmosphere of grace and elegance for more than six decades. ArchCare at Ferncliff Nursing Home & Rehabilitation Center brings the system’s inviting, home-like atmosphere and broad array of amenities and care programs to families and individuals in Rhinebeck, New York.

Newsweek developed its ranking of the 475 best nursing homes across the 25 states with the highest number of facilities. Four data sources were evaluated: performance data, peer recommendations, the facility's handling of COVID-19 relative to in-state competition and accreditation. More information can be found on the list of America's Best Nursing Homes 2023 [here](#).

About ArchCare

ArchCare is the Continuing Care Community of the Archdiocese of New York, and one of the nation's largest and most dynamic Catholic healthcare systems.
