

[Announcing Montefiore IPA and ArchCare Senior Life \(PACE\) Partnership](#)

A partnership that will allow Montefiore patients to keep their Montefiore PCP while allowing you to be a member of the team – helping to guarantee a better outcome for the patient.

Good news! Our Montefiore IPA has partnered with [ArchCare Senior Life \(PACE\)](#) to deliver all the services seniors need to stay healthy and safe while they continue to live independently or with loved ones. The services provided are through [ArchCare Senior Life \(PACE\)](#). PACE stands for program of all inclusive care for the elderly.

“The PACE program is a welcome alternative to nursing home care.”

-Dr. Allison Stark, Chief Medical Officer, Montefiore IPA

As part of the Montefiore Medical Group, you are now able to refer eligible patients into [ArchCare’s Senior Life](#), Program of All-inclusive Care for the Elderly (PACE), through our new partnership. [Click here to read more about the partnership announcement.](#) [ArchCare](#) is the Archdiocese of New York’s healthcare system that every day cares for more than 9,000 persons with long-term care needs and other healthcare needs. You will continue to provide primary care for your patient who will also receive the full support of the ArchCare Senior Life (PACE) team.

“As a physician or clinician of the Montefiore Health System, our PACE program is going to allow you to look at our patients in a very holistic way, both clinically and through the social determinants of health.” –Scott LaRue, President and CEO, ArchCare

COVID-19 pandemic has shifted how and where we provide care, shifting away from institutional, nursing home care to home and community based telemedicine care. As a comprehensive community-based program, [ArchCare Senior Life](#) will help our physicians provide patients who have long-term care needs with high quality coordinated care, services and transportation so they can continue to live at home.

ArchCare's Senior Life has a service area in the NYC region that overlaps with Montefiore. It is an innovative care model for people 55 years of age and older who can safely receive nursing-home-level of care at home. The program is conveniently based in the home and provides individuals with a dedicated interdisciplinary care team to manage their whole health in a comfortable and seamless way, utilizing sophisticated technology solutions. An easy-to-use telehealth system connects to patients through their home television set via the [MedSign Qortex Telehealth System](#) and other telehealth options, and a streamlined, technology-based transportation system through a partnership with [Ride Share](#) has revolutionized patient rides for ArchCare Senior Life participants. *All of these easy to use components of the comprehensive PACE model are offered FREE of charge to the participant.

“There’s nothing better than to be able to pick up the phone and talk to somebody about the care of that patient rather than calling an agency.” –Dr. Ruiz, Primary Care Physician, ArchCare Senior Life (PACE)

Please join me in welcoming ArchCare Senior Life into the Montefiore family. [Click here to watch the corresponding audio visual communications to further explain the services offered by PACE, the type of patients that will benefit most from it, and how to refer them to ASL.](#)

*Participants may be fully and personally liable for the costs of unauthorized or out-of-PACE program agreement services. The information contained is provided as a community service. It is provided as an educational resource and should not take the place of the advice and recommendations of your personal physician.
