Executive Director, ArchCare at St Vincent DePaul Residence

DATE: March 5, 2024

RE: Notice of Positive Test Result- COVID 19

ArchCare at St. Vincent DePaul Residence is concerned for the ongoing welfare, safety, and health of our residents.

This notice is to alert you that on March 5, 2024, we are reporting that one resident tested positive for COVID-19. We are following the latest CMS and CDC guidance for continued monitoring. We are actively screening residents and staff for signs and symptoms of COVID-19 and are working with our local and state health departments.

All our staff members continue to follow the CDC's recommendations to reduce the risk of spreading COVID-19. To minimize the risk of more of our residents becoming sick with COVID-19 in the building. Any staff member testing positive will remain offsite and will not permit to return until quarantine period is over according to CDC guidelines. We will continue to be open for visitation.

We will continue to follow the core principles of infection control and monitor all residents. If you are not comfortable visiting in person, other ways to connect include telephone, email, text, or through Skype. For the most up-to-date information on this topic, please visit the CDC website at <http://www.cdc.gov/covid19>.

A dedicated email address at info@archcare.org with a live team trained to specifically answer your questions is available. Our goal is to communicate information as soon as it becomes available. We will also be posting frequent updates on our website and, of course, we welcome all questions.
