**A Helpful
Solution to
Living with
Dementia.**

**Introducing
The ArchCare
Dementia
Care Connect
GUIDE Program.**

The **Guiding an Improved
Dementia Experience (GUIDE)**
model offers a comprehensive
package of services to improve
the quality of life for people with
dementia as well as reduce the
strain on their caregivers.

Many people with a dementia diagnosis feel uncertain about how to access the resources and support they need.

With **ArchCare Dementia Care Connect**, individuals and their caregivers are guided to available resources and can feel secure in knowing what to do.

How can Dementia Care Connect help me?

PATIENT CARE BENEFITS INCLUDE:

- Care coordination delivered by an Interdisciplinary Team
- Comprehensive assessment and person directed care plan
- Care Navigator to help access resources such as:
 - Home-delivered meal service
 - Transportation services
 - Home Health Aide services
 - Primary care physicians and specialists if needed

CAREGIVER BENEFITS INCLUDE:

- Ongoing monitoring and support via 24/7 access to a support line
- Caregiver skills training
- Respite care in-home or other settings if needed
- Tips for medication management

Dementia is a devastating disease. Our aim is to help address the unique needs of this population and their families to:

Improve the quality of life for people living with dementia

Reduce burden and strain on unpaid caregivers of people living with dementia

Prevent or delay long-term nursing home care

Who is eligible?

- Diagnosis of dementia, as confirmed by clinician attestation.
- Has Medicare as their primary insurance plan.
- Enrolled in Medicare Parts A and B (not enrolled in Medicare Advantage, including Special Needs Plans and PACE).
- Not enrolled in Medicare Hospice benefit.
- Does not reside in a long-term nursing home.

**YOU ARE
NOT
ALONE**
